Dimas Wahyu Nugraha

Mahasiswa Teknik Komputer Universitas Syiah Kuala
Banda Aceh, Aceh, Indonesia

Summary

Hi! I'm Dimas Wahyu Nugraha, a Computer Engineering student at Universitas Syiah Kuala with a strong interest in UI/UX design, front-end development, and machine learning. I have experience building intuitive user interfaces and applying machine learning models through academic and independent projects, including participation in the MBKM machine learning program.

Beyond software, I'm also passionate about automotive electrical systems, especially in motorcycles. I enjoy exploring how software and electrical systems can be integrated—an interest that aligns with the growing shift toward electric vehicles and automation. My goal is to bridge these disciplines to develop innovative and practical technology solutions.

Experience

Himpunan Mahasiswa Teknik Komputer USK
